

# Project 1

Implement a custom shell which should support all command execution. The custom shell should have a prompt

**myshell:~\$**

The shell should support:

1. Providing a history feature

**myshell:~\$ !!**

should display last 10 command history

2. Adding support of input and output redirection

**myshell:~\$ echo Test > test.txt (output redirection)**

**myshell:~ \$ cat < test.txt (input direction)**

3. Allowing command piping of upto level 1

**myshell:~\$ ls -l | less**
